TAXXER'S PEACE PLAN.

Cullom Would Lose Sangamon Before the Committee on Resolutions reported an effort was made to secure instructions for Congressman Williams for second choice, Mayor Shephard would have none of it, however, claiming that he had as well stey at home as he forced to enter the convolution with such instructions. His friends even went so far as to secure to him the right to select his own delegates, so that should trading be necessary he could play the game to his own interests. That the nomination will be the result of such combinations is even at this distance admitted. County if He Accepted. REPUBLIC SPECIAL.

Springfield, Ill., May 29.-Overtures were made to-day by the Tanner faction in the Republican party to bring about a settlement of the controversy now existing in Sangamon County. Edward S. Robinson, chairman of the County Central Committee selected at the opera-house convention has February, received a letter this morning from U.G. Himman, chairman of the committee selected the same day at the Statehouse meeting, advising him that the Tanner committee would present its case before the State Central Committee at the meeting to be held in Chicago next Friday.

The avowed object in thus advising the Callom faction was to give the members an opportunity to carry their case before the State Committee at the same time. According to the statements of the Cullom leaders, the proposition of the Tanner faction is fittended to lead the Cillom men into a trap. With a majority of the State Committee members Tanner and Yales men, the Cultom contingent are confident that a hearing before that tribunal would be nothing more than a farce. They purpose carrying the matter into the courts to have the question passed upon by legal authorities instead of a blased political organization. ment of the controversy now existing in binations is even at this distance admitted.

Servity-one delegates will be accredited to the curvention. The south side of the district, Jersey, Calloun, Greene and Maccapin, has thirty-seven votes, the requisits number for election. Jersey will claim Calbour's delegates in return for support in the Scuatorial Convention, both countries belenging to the Perty-seventh District, with Madison and Calbour having a strong desire for a Representative.

The same conditions are said to be true in Greene and Maccupin. Maccupin's congressional son, W. L. Mounts, is the present Schater. The party in Greene have for years desired the office. Should Mounts not secure the nomination, he will still be a factor in the sematorial race. Some of the leading Democrats outside the country say frankly that it would be to Greene's interests if its candidate. H. T. Rainey, could not go to Congress to support Mounts in order that J. K. P. Farrelly might be sure of the Senate. Tols scheme would necessitate the co-separation of Jersey County, which is not bound to Greene and Maccoupin in any political sense, save in the Third Judichal District.

At present Maccoupin, Morgan and Sangamon hold the Circuit Judgeship. For diffeen yours previous to the last election Judge G. W. Herdman of Jersey County sat on the Circuit bench, and the desire for the return of the judgeship to Jersey, it is thought by some, will bear a bearing on the congressional result should Mayor Shephard not be able to carry off the nomination.

In speaking of his candidacy Mayor Shephard not be able to carry off the nomination.

In speaking of his candidacy Mayor Shephard not be able to carry off the nomination.

In speaking of his candidacy as second choice, there are so many continuence any rational claim to the pium. Should the south side of the district support me I will go to Washington. In the matter of these particular counties supporting a second choice, there are so many continuence to be taken into consideration that a reliable prediction cannot at the presen
